MHSP SnoJob
April 2008

President's Notes

Congratulations to the many apprentices who have finished their training.

Thanks to those of you have already started working as patrollers. You have been a great help this spring. Keep up the good work. We will have a long spring ski season this year. We will need all the help we can get to cover the areas. This has been one of the best ski seasons in memory, and it isn't over yet. There will be great spring skiing into June.

The April General meeting is our election meeting. In addition to voting on next year's officers, there are several bylaw amendments we think will improve the operation of the patrol. Please come to the meeting so you can vote in these important elections. (Apprentices will not be eligible to vote until they receive their full membership in May at the Awards Banquet.)

The annual MHSP Awards Banquet is coming up the first Saturday in May. Please plan to attend. This is our way of honoring our new members and some of our older members who have had special achievements during the year. You will see your fellow patrollers in a different light, when they are all dressed up to go out on the town. It is always a good party, and Timberline always puts on an excellent meal.

If you are aware of a patroller who deserves recognition for an especially good job or tough case this year, please let one of the Council Members know. The Wiki has a section that describes the Awards and lists the past recipients. We will be deciding the recipients of the awards at the April Council Meeting.

Speaking of the Wiki, thanks to Dave Miller, Troy Donahue and Christy Owen, we now have a car pooling function in the Wiki. See their article later in the SnoJob

By now you have seen the electronic survey we are doing. Please take some time and complete it. Your answers will help us plan our activities and benefit negotiations in the future. We need to know what works, and what needs improvement.

The dispatch site has a lot of uses that most patrollers are not aware of. I would like to mention two you might find useful:

The "Search" function. If you enter the name (first or last) or number of a fellow patroller in the Search window, the program will return a list of members matching your request. When you select one, you will see their future schedule. This can be a real help if you like to ski with someone, are looking for a ride, or need to meet them for something. It makes it easy to coordinate schedules.

The Roster. Custom roster settings allow you to filter a roster to display just the information you want and sort it. For example if you need a structural engineer, you can sort by occupation and you will find several structural engineers listed. If you wanted to find all the Intel or Nike employees, you could sort by employer. You could also find all the patrollers who live in Salem or in a particular zip code.

We have a great ski season going and the Council is working hard to make your Patrol better and better. Keep talking to us and be sure to fill out the survey. And remember, SPIF!

- Joel Stevens

MHSP General MEETING

NOTICE -

It's on YOUR calendar, right?

General Meeting

DATE: Monday,

April 14, 2008

TIME: 7:00 PM.

(doors open 6:30)

PLACE: Athey Creek Middle School,

2900 SW Borland Rd, West Linn.

Patrol Chief - Paul Podett

A New Attitude.

It seems over the past several months a new attitude has developed at MHSP.

At first, I thought I was the only patroller seeing a change but now there are others.

I find a new attitude amongst the hill and associate patrollers. Whereas, in the past, there was a turf, now there is a team. It's our patient, our mountain and our patrol.

In recent years, we have had a shortage of hill patrollers. Thanks to this year's recruitment effort we are continuing to make amends for previous losses. Currently, we barely meeting our minimums of hill patroller coverage due to the lack of personnel.

With the challenges of our dispatch, this lack of hill patroller staffing is a great concern until you see the green on the dispatch and observe the level of commitment and a new attitude.

I would like to thank all the associate patrollers who have helped out on the hill this year, going above and beyond the call of duty; helping with hill set up, dispatch, first responder and all the challenges of mountain rescue.

Thanks to all the associates and their supervisors for making this year a great season. By knocking down some old barriers and attitudes and being there for your fellow patrollers.

Thanks too, to all the hill patrollers who have dispatched and provided support to associate patrollers, and for all those Hill Captains who share an attitude to make the team work.

Doc
Paul Podett
Patrol Chief #1210

Membership Commitment

Gold = 20 days total including 2 summer days

Silver = 17 days total, including 1 summer day

Bronze = 12 days total

Total days includes training days and days as an instructor or coach.

Ski year ends on Labor Day

First Aid Chief - Cleo Howell

Automatic External Defibrillators (AED)

Timberline just recently purchased two more AEDs.

One will be kept at Guest Services in the Wy'East Day Lodge. Mountain Services is where we go to get guest passes and vouchers (across from the rental shop).

The second AED will be deployed to the highest operating lift, which is also known as "bump". Please take a look at the AED so that you know exactly where it is located in case you must get it in an emergency.

Most of you probably know Skibowl has an AED. It is located in the Rescue Center under the diamond plated bench, against the west wall.

- Cleo Howell

Radio Rant– worth repeating (get it?)

by Rad I. O'Rant (MHSP #0000)

When you're standing in a group of patrollers, and a radio transmission starts, STOP TALKING.

The current transmission may not concern you, but at any time, something may start you need to know about. If another patroller isn't listening, point out this error. In the same way, if you're skiing and hear the radio, stop and listen.

It's your responsibility to know what is going on.

Associate Director - Dave McKay

Guidelines for Hill and Associate Cross-Training
Approved by the Executive Council:
February 13, 2008

1. Hill Patroller to Associate Patroller:
    a. There must a written (email) request by the patroller to both the Patrol Chief and Associate Director; the request must be approved by both and by the Executive Council;
    b. There must be a defined start date in which the Hill patroller will begin training;
    c. At the start of training, the Hill Patroller will be considered an Associate-in-Training (AIT), and will be required to conform to the Associate Patroller uniform. The uniform may include MHSP patches, per the Associate uniform guidelines;
    d. Associate-in-Training Requirements:
        * Two days working under the supervision of the AS at Timberline;
        * Two days working under the supervision of the AS t Ski Bowl;
        * Optional: Two days working under the supervision of the AS at Meadows
    e. The focus on the AIT program will be on an assessment of first aid skills with enhancement as needed, FAR processes and patient care, radio communications and direct patient care experience.
    f. AITs will dispatch as an Associate Patroller, and will assume the "scope of practice" an AP while on duty. They must follow all guidelines, policies and procedures of regular AP's and will not perform Hill Patroller duties (i.e. pull sleds);
    g. Upon completion of the AIT training program, and upon approval of the Patrol Chief and Associate Director, the AIT may begin regular dispatch as an Associate Patroller.
    h. The Patrol Chief will then notify the APC of Records to officially change the status of the patroller to Associate Patroller.
    i. The AIT will be recognized as a new Associate Patroller at the annual Banquet
2. Limited Duty Hill Patroller

A Hill Patroller who is unable to perform on-hill duties due to injury, illness or other health condition (i.e. pregnancy), will dispatch as an Associate Patroller, and may work exclusively in the FAR as per the following:

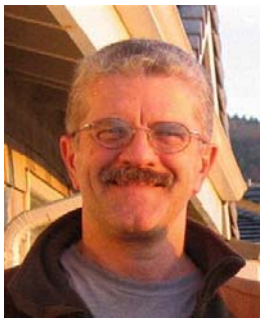
    a. Contact the online dispatch administrator and request a temporary change in status to AP. This will allow the patroller to dispatch as an Associate during their health condition;
    b. Dispatch as an AP on the online system;
    c. Contact the Associate Supervisor (AS) of the day and let them know of your status, and need to work as an AP. If no AS is dispatched for the particular day, contact the HC. If neither an AS or HC is dispatched, contact either the Patrol Chief or Associate Director.
    d. Hill patrollers on temporary assignment as an AP must abide by the dress code of the FAR (i.e....wear a red shirt with name badge and MHSP patch) as per the Associate Patroller uniform guidelines;
    e. All work during the shift will be directly supervised by the AS of the day;
    f. Upon being able to return to Hill duties, contact the web administrator to change classification back to HP
    g. The web administrator will notify the APC of Records of all classification changes.

3. Hill Captain to Associate Supervisor
    a. Must be a Hill Captain in good standing;
    b. Transfers are accepted at the discretion of the Associate Director;
    c. Must complete the Associate in Training (AIT) program and demonstrate proficiency as an Associate Patroller;
    d. Must complete the Associate Supervisor training requirements
    e. Executive Council confirmation is required

4. Dual Hill and Associate Patroller
    a. Must be either a Hill or Associate Patroller for at least one full season;
    b. For Hill patrollers pursuing Associate Patroller status, must complete the AIT training program and be approved by the Patrol Chief and Associate Director;
    c. Must be approved for status change by the Executive Council;
    d. Must abide by the corresponding uniform requirements on dispatched days, i.e....must wear a red jacket when working as a HP, and a blue jacket when working as an AP;
    e. Will be accountable to the corresponding supervisor (HC or AS) depending on role worked during a shift;
    f. For Associates wishing to become dual certified, all requirements of the Hill training program must be met.

Dave McKay

Nordic News - Michael Curtis



Though it's been a big snow year, the usual and sundry searches by the MHSP Nordic Patrol have been quieter than usual.

The sheriff's dispatch are fully comfortable calling and never hesitate to draw on us.

The last of week of March, with bluebird days, drew three call-outs.

All three were between 5:30 and 6:00 pm. The first call involved a distressed snowshoer unfamiliar with the area. He went from Trillium to Still Creek. Nordic Patroller Dave Ewing found him. The Hawaiian native visiting Oregon obtained a ride from Dave who recruited help from companions with the distressed snowshoer. AMR was waiting at the trailhead. Once fully checked over by the ambulance crew, the snowshoer was released to the care of his companions.

The other two calls were also distressed skiers, but located shortly after dispatch notified MHSP Nordic and called off the request. One was at Yellowjacket, the other at Pocket Creek.

We have been busy with a first aid presence at events around the mountain. The requests for our services continue to grow—something's working well.

Keep your gear ready.

Michael Curtis

MHSP Nordic Patrol Director

Blowing in from the Bowl

Mike Klein, Randy Carrier and Peggy O'Leary - APCs for SkiBowl

A big thank you to all who have patrolled at SkiBowl this winter season. Outstanding work was performed all season from snow shovelers, first responders, sled runners, associates in the aid rooms and the tube hills, and our new Mountain Hosts. There have been many challenging incidents but you rose to the occasion.

Spring is here so that means lower crowd numbers and a more relaxed attitude. It's time to keep our focus though and provide the top-notch care we've given all season.

There are many days open on the dispatch for the remainder of the year and it's impossible to give a closing date right now. If you committed to a minimum number of days in order to earn pass benefits your time to patrol those days will be limited. Sign up now and enjoy some fantastic spring snow.

Please remember any chits earned this winter expire at the close of the ski season. They are not good for the summer or next year. Use them or lose them.

Speaking of summer, it's also time to get your legs and mountain bikes tuned up for summer patrolling at the Bowl. With the amount of snow on the ground it may be mid-June before things get rolling but it's not too early to plan on a few summer patrol days. Future SnoJobs will have all the details.

Again thanks for all your help at the Bowl this winter. It is one to go down in the record books and Erich, Brett and your APCs thank everyone who worked there this year.

Mike Klein, #1089
Randy Carrier, #1221
Peggy O'Leary, #1451
Skibowl APC's

Meadows Myth Busting

In talking with several of you recently I have come to realize there are a lot of myths still lingering around from the Meadows of old that are no longer true. So I would like to try and dispel some of these.

Myth 1: Snowboard patrollers are not allowed at Meadows

Busted: Snowboard patrollers are welcome at Meadows. Jose Rodriguez has been patrolling on snowboard with A team for over a year now and the feedback Meadows has gotten from the public has been very positive.

Myth 2: Meadows patrollers cannot have facial hair.

Busted: Facial hair is fine as long as it is well developed and neatly trimmed, and not a couple of days growth. Several of the Meadows pro patrollers are now sporting full beards.

Myth 3: MHSP only patrols Shooting Star and Hood River Meadows lifts.

Busted: Mel Toney has made it a point to ensure the MHSP is fully integrated into the Meadows patrol. We patrol the whole mountain and work side by side with the area Pros. We do all the same jobs as the Pros, with exception, of course, of explosive AC work.

Myth 4: Meadows lap carries their sleds up the lifts.

Confirmed: Yes, we do still lap carry sleds on lifts. But what most people don't realize is the Meadows sled packs are about half the weight of the ones at the Skibowl and Timberline. The tarps are considerably lighter and they only contain one blanket, a pad and a J-Splint.

Myth 5: No Training at Meadows

Busted: Meadows welcomes training as most of the apprentices from the last few years can attest. Besides sled training, Meadows is continuously training throughout the year. On any given weekend there are almost always a few transceivers buried out on the hill somewhere. And don't be surprised if you respond to a 10-50 and when you show up on scene, one of Meadows Pros is your mock patient.

Myth 6: Scoop and go patrolling mentality.

Busted: Meadows trains and adheres to the same NSP OEC protocols and procedures as we do (rapid survey, SAMPLE, stabilize and transport, etc.).

Patrolling at Meadows has changed significantly over the past few years. MHSP is very much an integral part of the Meadows patrol with mutual respect between us and the Pros we work with.

There is an open invitation to any qualified MHSPer who is interested to come over and shadow with us at Meadows. Like Debbie mentioned in her e-mail a few weeks ago, Spring is a great time to come check out Meadows. Heather Canyon is open more frequently and the ride, or hike, up to 9150 and of course the trip back down is spectacular!

If you can, dispatch and show up at 7:00 am in the patrol room. The council has asked you not shadow if any of the other areas are in the red on dispatch.

Saturday's Hill Captains are: Eric Pool cebtpool@comcast.net and Rod Legg rlegg@us.ibm.com and

Sunday's Hill Captains are: Jeff Ezzell jeff.ezzell@intel.com and Debbie Norvell debbie-norvell@comcast.net

Please let any of us know if you have any other questions or myths you'd like to get clarification on.

For more information on patrolling at Meadows check out MHM Procedures on the Wiki.

Jeff Ezzell
MHSP HC1204
Meadows APC

A word from the Summit - Diane Kindall & Dave McKay

We have wonderful deep snow at Summit! This means Summit will be staying open longer this season.

Please continue to dispatch for Summit online or if online dispatch registration isn't available yet please contact Diane Kindall at 503-557-2912 or 971-219-3138.

Easter dinner was served as a traditional event for Summit. Last year we had sunshine....this year we had snow.

Thank you for all who have dispatched so far. Special thank you to Nunnally Johnson for watching and dispatching when needed.

Dave McKay and Diane Kindall
Your Summit APCs

Seeking Awards Nominations....

The 70th Anniversary Awards Banquet will be held in May at Timberline Lodge. In addition to inducting new members, we'll be recognizing the best among us. Make your nominations now for the following:

Outstanding Nordic Patroller

Outstanding Mountain Host

First Aid Recognition

Ralph Wiese Award ~ First Aid Instructor of the Year
George Anderson Award ~ First Aid Excellence

Associate Patroller Recognition

Associate Apprentice of the Year
Irv Huppin Award ~ Associate Patroller of the Year
Associate Supervisor of the Year

Hill Patroller Recognition

Rod Morrison Award ~ Hill Apprentice of the Year
Barney McNab Award ~ Hill Patroller of the Year
Jerry Edgar Award ~ Hill Captain of the Year

John Keyes Award ~ Meritorious Service

Bent Pole (best injury in the line of duty)

Mountain Hosts

H - hospitality
O - optimize
S - safety
T – teamwork

I saw something last weekend that I wanted to pass along.

There were two ladies with kids at the Mountain Services Desk and they were passing along their appreciation for the Hosts at Timberline.

They said there were Hosts everywhere they went, at the top of chairlifts being friendly and answering questions as well as out on the slopes stopping to see if they were having a good day.

They commented they had never seen anything like this anywhere else they have been, and they thought every resort should do like Timberline.

As I thanked them and prepared to head out again, they were busy filling out the comment cards so Jeff K. could receive their appreciation also.

It's great when guests are appreciative of the Host program that Timberline started some 20+ years ago. This is part of what has always set Timberline a notch above the rest.

Special thanks to everyone helps make this happen.

Mike Cullen (a.k.a. Chuck)

Palmer - photo by Corey Schneider

Open Letter to Hosts

Editor's note...

Though this went to the Mountain hosts,
the essence of the letter is a great reminder for us all.

Overall we are having a terrific season this year. The guests, MHSP and staff have been pleased with the action and service the Host Patrol has provided.

We all judge ourselves by our intentions, but others judge us by our actions. When working with our ski/ride guests, staff and the MHSP, it is very important that we treat everyone with respect. Our job is to provide a safe and enjoyable environment for everyone. We are not an enforcement team. If we have issues with a guest who refuses to follow the rules, we must politely inform them. If the issue becomes out of hand, we should inform the MHSP or staff.

Satisfied guests and staff are the true bases of our success. In this respect, we are committed to providing the type of quality service that will ensure their continued trust and loyalty.

In this day and age, it is seldom that guest or a staff member will take the time to inform us of the many outstanding experiences and efforts, with the guests, that you are providing. On the other hand, if they seem to have any kind of complaint, it is generally expressed promptly and quite clearly.

If you feel your are in a situation that is getting out of hand, please stop and get in touch with the Host supervisor for direction. You can be assured your request will be given every consideration. Our yellow coats, arm bands and blue bibs make us highly visible. Therefore, we must be aware our actions are always being evaluated. We are the ambassadors for the ski/ride areas.

Everyone sincerely appreciates the efforts our Hosts have been providing.

Let's continue to have a great season. Please continue to have fun and enjoy helping others have an outstanding time on the mountain.

Elections

At the April general Patrol meeting we'll elect next year's Executive Council. This is the official annual business meeting for our 70th year, so come on out and vote! Please review the list of offices and the candidates for each position. Be prepared to vote at our April meeting or by absentee ballot. An absentee ballot may be obtained via email, fax, or mail by sending your request to the Senior Trustee.

In order to be counted, all mailed absentee ballots must be received the Friday before the April meeting by 5:00 PM (April 11th), or hand delivered to the Senior Trustee prior to the election at the general meeting; about 7:15 pm. Further instructions will accompany the absentee ballot.

Offices and Candidates:

President -- Joel Stevens
Vice President -- John Gastineau
Patrol Chief -- Paul Podett
Associate Director -- Dave McKay
Nordic Director -- Michael Curtis
First Aid Chief -- Cleo Howell
Secretary Mark -- Diamond
Treasurer -- Kathy Lee
Junior Trustee -- Lisa Hargrave

Request an absentee ballot by sending an email, fax or letter to:

Mac Sheldon, MHSP Senior Trustee
20580 South May Road
Oregon City, OR 97045
503-650-9833 Tel, 503-650-9834 Fax
mac@sheldon.com

Please include your name, Patrol number, address, phone, fax, and email address with your request for an absentee ballot. Please allow one week to receive your ballot by mail and two days to receive it by return email or fax.

There is still time to enter a nomination for a new candidate. If you or a fellow Patroller is interested in running for any of the offices listed above, please contact one of the members of the nominating committee:

Mac Sheldon mac@sheldon.com
Steve Eversmeyer sa_evers@hevanet.com
Matt Hickok m.hickok@comcast.net
Mike Allen Cell: 503-320-3424
Daniel Dean ddean1069@hotmail.com
Terry Niedermeyer terry@niedo.com

See you at the April General Meeting!

Mac Sheldon
Senior Trustee

MHSP

Break out your finest and dust off your dancing shoes!

It is time for **The Annual Ski Patrol Awards Banquet** !

(And all around fun evening!)

Date: Saturday, May 3, 2008

Time: 6:00 PM

– no host bar followed by the banquet and program

Music, dancing and conversation to follow the program.

Place: Timberline Lodge

Dress: Cocktail stuff (leave your ski duds with your skis)

Watch out! for your invitation and make sure to **RSVP as soon as possible.**

Get a room! at Timberline Lodge. They have blocked a limited number of rooms for the event. First come, first served. Make sure to identify yourself as a Mt. Hood Ski Patroller when you call. (Reservation desk is open Monday through Friday.)

Olympic Fever

I've had a few folks asking about how to volunteer for the 2010 Olympics in Whistler. Here is a photo from my stint there helping with the Canadian Nationals, Jr. Nationals and prepping for the World Cup races.

Volunteering as Course Crew gets you the best seat in the house. - Steve Eversmeyer

Carpooling

It's 6:15AM on a Saturday and I'm tearing around my house. A virtual Tasmanian Devil of skis, boots, patrol backpack, sack lunch and coffee. On this Saturday morning, I have a deadline. It's one all of us face at least 12 times a Patrolling season, and that's to get to the FAR, Palace, or HQ by a certain time with boots and a smile on, ready to work for the day.

I drive furiously (and carefully!) to my destination. Along the way, I see at least one vehicle with an MHSP sticker on the rear window and skis on top, no doubt heading to a similar location. Hmmm…, I wonder whose car that is and where he/she is working today. Oh, and a final thought on this hectic Flight of the Bumble-Bee morning. I just spent $48 on gasoline (almost a lift ticket) with a $.14/ mile itemized deduction- I'll save you the math; it doesn't pencil out.

I've got to find a way to connect with that mystery car, if only I knew who was behind the wheel… If only there was a way to go to one location and find out who else was working and what his/her phone number is…

Thanks to Terry Donahe and Dave Miller who put their technical heads together to address the "who is that?" question; the Patrol now has the ability to connect with each other to arrange carpools.

Beginning in mid-March there will be a new carpool information feature on the Mt. Hood Ski Patrol Wiki-site.

Patrollers can log into the Wiki, go to the carpool feature under "Events" and it will inform the patroller of his/her next four dispatched days and provide contact information for other dispatched Patrollers for those days. It's very slick, very user-friendly, and very important to our roles as stewards of the mountain and regional environment. The Wiki site details suggested meeting places for carpools, suggested costs to reimburse the driver, and it provides for future weekend carpooling options.

While my bumble-bee morning is hectic, taking an extra couple minutes to meet for a carpool is worth it, when the costs to the environment and costs of transportation are factored in and compared to the extra 5-10 minutes of effort to meet a carpool. Beside, it's got to be more fun to laugh at the days adventures and misadventures with another couple of Patrollers on the way back to the things we all do when we are not Patrolling.

The link takes you directly to this exciting new feature is http://www.mthoodskipatrol.org/wiki/pmwiki.php/Events/Carpooling

Christy Owen

Avalanche Kudos

Congratulations to Matt, Matt and Steve; Matt Rea, Matt Hickock and Steve Eversmeyer.

The Matts and Steve took on the job of avalanche training and refreshers with a vengeance! On the day this editor was fortunate enough to be party to digging out 6 (yes! Six!) fake avalanche victims it was one of those sunburning bluebird days that ticked along like clockwork. It was smooth, with no time wasted. Work hard, get timed and you're out-a-there...duly impressed by the fact that avalanches are scary and you sure want all your friends to be knowledgeable with good equipment, along with able digging ability. Keep that shovel handy!
