MHSP SnoJob
June 2009

President's Notes
- John Gastineau

As I write this it has been a month since I've patrolled and it'll be another couple of months before can patrol again, all due to shoulder surgery. It's very strange to me to not have the work of patrolling to do. It's become a part of me.

How has patrolling become part of you? We all do this for somewhat different reasons. Learning new ski or first aid skills, hanging with good friends, or just feeling a part of the mountain life are all good reasons. Regardless, you get out of it what you put into it.

With that thought, what are *you* going to put into the summer and coming season? Are you ready to step up to more rewarding patrolling? To get more out of your time with MHSP?

Here are some challenges for you:

Do five more days this year. Whether just being familiar with the routine, or being more comfortable with being first-responder, the more you patrol, the better you get at it.

Get a friend to join us. We have to continuously recruit to keep our numbers up.

Find a corporate contribution for MHSP. Even though companies are cutting back on charitable contributions, a few $100 or $500 checks will really help us focus on what we do best.

Start thinking about the ski swap now. Get involved and help make it a great fundraiser.

Teach. Whether it be avalanche, OEC, FRT, or toboggan-handling, you never really figure something out until you try to explain it to others.

Go skiing without a cross on your back--at least a few days. Really. You deserve it. Whether you take a day to actually use a Timberline chit and take the Palmer only to then hike up to Illumination Saddle, or take a weekend to try out some place in Washington you've never seen, it's worth recharging and getting out of the ski rut you can get into at our home areas.

Say yes if you're asked to help out on a committee or patrol task. You'll work with good people.

I know I'm going to work with some great people as I start my term as your new president. Please let me know how things are going, and how we can make it better.

John Gastineau
503 906 6418, ok to call until 10pm
(Did you realize you were electing a snowboarder?)

Outgoing President's Notes - Joel Stevens

Congratulations to the new Council. I'm looking forward to getting back in the trenches and out of the line of fire. I hope to contribute for many more years as an active patroller, just like many of our previous ex presidents.

Congratulations are in order for all of the Award winners for the 2008-09 season. The list of award winners is included in this Snow Job. These are special people who have gone above and beyond, setting the bar for the rest of us. I would especially like to thank the Super Hero Recipients. This group of the top 10% averaged over 34 days this season, and accounted for almost 25% of our total patroller days.

I would urge all of you to consider attending the PNWD Convention this year. Even though it is hosted by the Oregon Region, the venue is in our own back yard, in Wilsonville. It is a great opportunity to take in some instructional seminars and meet other patrollers from around the Northwest. It is especially important for our Officers, and our instructors since this is where new ideas and requirements are discussed.

As I mentioned in my May article, please block out time on the Columbus Day weekend, to work on the swap. We need a couple of shifts from all of our patrollers and hosts to make this happen. We will be putting the Swap schedule out in June, and either use the current Predispatch website, or a special Swap Predispatch website to schedule for the event. Please be generous with your time. We will need a lot of people to help set up starting early Friday (October 9th) morning, and continuing through the day and evening. We will have two shifts on Saturday, and probably on Sunday as well.

Please do not use the Members Listserver for personal ads. We have a section on the Wiki for items for sale and wanted so that you can advertise there. All members can access this area and post to it. Please take your ad down after they are no longer relevant. The moderators will generally remove any ad that is more than 6 months old. You can always repost it, if you still want it up.

We are in the process of setting up an area on the wiki for help wanted and services available, to help our un or under employed members connect with other members who have opportunities or service needs. Also, by using the "Custom List of Patrollers" feature on the roster page, you can sort our membership by occupation or employer, which may help find services or opportunities.

A reminder to members who have more than one email address: You can only post to the listserver from the email address(es) where you are subscribed. You can be subscribed with more than one email address, but you will get duplicate emails, one to each address.

Remember SPIF
Joel Stevens

Patrol Chief - Jeffrey Weitz

Greetings from your new Patrol Chief,

Summer session at Timberline is just around the corner and we are gearing up for some excellent Skiing, riding and training opportunities.

We will be patrolling up there all summer long so don't forget to dispatch early and dispatch often.

For those apprentice patrollers who have completed all your requirements please make an effort to come up this summer and learn the ins and outs of summer patrolling with our more experienced Hill and Associate patrollers. You are all welcome to join in the fun. Summer days start early and end early. This is truly what makes Mt Hood the greatest place to patrol on the planet! For those apprentices who have not completed all your requirements or to those who are just joining the Patrol you are also welcome to shadow during the summer days – just let the hill captain of the day know you are coming. We will have 4 spots open for Hill patrollers each day and 2 spots for Associates and room for 1 or 2 Shadows per day.

.

Also, for you skiers out there Timberline will be hosting a fun and professionally staffed Skier alignment program 2 –day event on June 27th and 28th so take advantage of this excellent opportunity to improve your skiing skills. Contact Matt Aimonetti for details.

I just wanted to give a thousand blessings and thanks for the hard work and training the Hill and Associate apprentices did this season and congratulations on a wonderful and fantastic Fun Day event this year. It was truly enjoyed by all who attended!

Please welcome our two newest Assistant Patrol Chiefs (APC) when you see them on the mountain: Timberline APC, David Atkinson and Mt. Hood Meadows APC, Eric Pool.

For those of you who love to grab the Mountain Bike and have some fun in the sun, we will be staffing Skibowl again this summer with the MHSP Mountain Bike Patrol. Watch Dispatch for the dates.

Have a great summer!

Jeffrey Weitz
Patrol Chief

Mt. Hood from Hwy 35 MP 80 -~ photo by Lisa Hargrave

First Aid Chief - Jodie Jeffers

I am very excited to be back and continue on with the excellent work Cleo has been doing these past two years. OEC skills: practice and all of your great work doing cases is not easy sometimes. Please drag that book out, review your flip book, and come to an OEC class to reinforce all that training. All patrollers are welcome and encouraged to sign up for a shift in the FAR to reinforce that learning!

It won't be long until we start off the new season with the OEC Refreshers, so please double check the online calendar and start planning which date will be best for you. The process of pre-dispatching and no drop in will be continued. Make sure you renew your CPR card if needed and please let me know if you need any help finding a course.

Summer fun brings a whole different set of potential emergencies to brush up on. Some include: Heat Stroke, Heat Exhaustion, Sunburns, and Major Abrasions to name a few. Skibowl is a lot of fun to practice those skills!

This fall our M1 Apprentices will not only need their CPR card PRIOR to training but will also have taken the Outdoor First Care Course. This does NOT replace or shorten the OEC Course but builds on it and preps the apprentices to better able to be a "helper" on a case. At no time are the M1's to be lead on a case. That can only occur once their OEC class is done.

Current M1's in OEC now will do their FRT training this summer to complete their training. Sounds confusing, but your council is working on ways to assist this. Suggestions? Please pass them on.

Have an enjoyable summer. Please keep in touch especially for those puzzling, difficult, or first time cases!!

Jodie Jeffers
First Aid Chief
Tailwaggin1@mac.com

CPR Classes for MHSP 2009

Make sure your CPR card is current, as this is a requirement of National Ski Patrol.

- June 11th, 7pm to 9pm,Providence Portland Medical Center
- July 23rd, 6:30pm to 8:30pm,Kaiser Permanente Sunnyside, Clackamas
- September 5th, 9am to 12pm, TBA
- September 17th, 7pm to 9pm, TBA
- October 24th, 9am to 12pm, TBA

- Cost is $20.00 for patrollers.
- 2 year card from American Heart Association.
- All classes are on dispatch, so please sign up on dispatch.
- If you have a problem with dispatch let me know.
- If you are a new patroller please e-mail me.
- Any questions please don't hesitate to call or e-mail me.

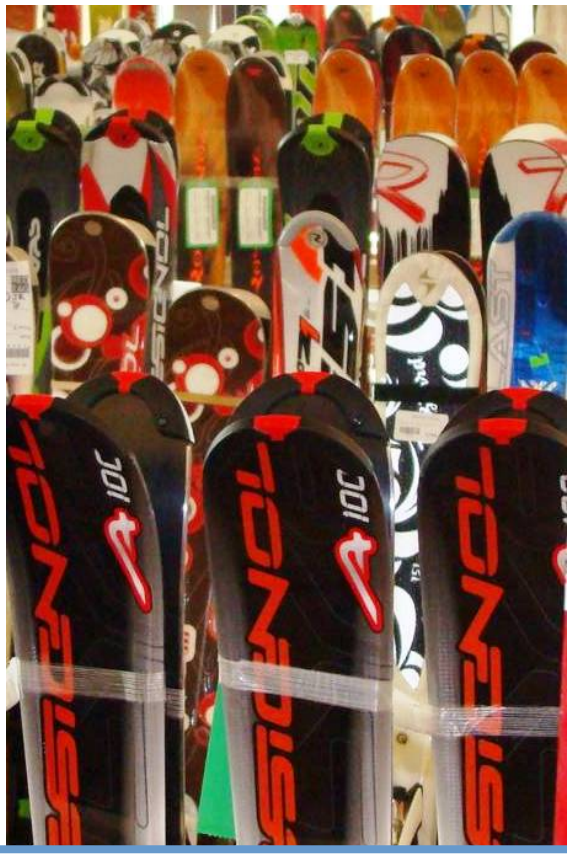
Cell: 503-930-2098



Outgoing

Associate Director - Dave McKay

I can't believe how time has just flown by. It has been a great honor to serve as Associate Director for the oldest and BEST ski patrol in the nation! And now, my term has come to an end. I would like to thank everyone for your continued support. I couldn't ask for better folks to work with and represent. I have really enjoyed my time with the Executive Council in addressing some fairly thorny issues. I have appreciated the openness and candor in which these issues were discussed, and sometimes, it wasn't very fun.

The Associate program is strong, and continues to be a backbone to the patrol. I'm impressed with the level of integration that has occurred over the last few years, and that we perform much more like ONE patrol. I'm also impressed by the number of people that have stepped up into leadership roles, helping out with OEC training, the Swap Meet, in supervising capacities, and in many other activities. Thank you for your help and leadership!

So, now I turn the Associate reigns over to James Schuler, an incredibly capable leader. I look forward to working under James' direction and supervision as our new Associate Director. Please join me in welcoming James as he transitions into his new role. In the meantime, I will see you at the banquet and on the hill!

Dave McKay
Outgoing Associate Director

Incoming

Associate Director - James Schuler

All Seasons Greetings!!!

The snow fall is finally coming to an end and new beginnings are sprouting up… a new class of Patrollers received their pins and crosses. A new group of Candidates have been through Orientation and begun their journey through the Apprentice year… and now a new Council also takes its seat to begin working on the year to come. I want to extend my thanks and heartfelt appreciation to the outgoing Council members for their hard work and many hours of effort. My thanks also, to the Mount Hood Ski Patrol as a whole, for a great season. The snow was fantastic (just ask Bob) and the Dispatch coverage was excellent. Everyone stepped up and made it look simple.

I'm looking forward to working with all of you in the coming season and just in case you hadn't noticed, it has already started. OEC is still ongoing, and First Responder Training will follow on its coat tails this month. Next month there will be a new group of Rookie Patrollers who will begin Dispatching. Get your Summer Dispatch wrapped up and spend a day or two with the new Patrollers (and a few of us old guys) – you won't be disappointed.

A great summer to you and to your families. Be safe and we'll meet again on the snow!

James Schuler
Incoming Associate Director

Timberline

SUMMER OPERATIONS

Here are a few hints for those of you who have never summer patrolled or who are a little rusty on the procedure.

Opening Hours: Check the operating hours at www.timberlinelodge.com. Hours can change with little warning. Plan to be on the chair 30 minutes before the stated opening time. Morning meeting will be 15-20 minutes before that. So you should arrive 1 to 1-1/2 hours before the stated opening time (depending on how much time you need to get ready).

Closing Time: The Palmer Chair will stop loading at the published time, but the terrain parks will remain open. This year the camps will have private rope tows for their campers. MHSP will do a soft sweep of the ski runs while the paid patrollers will remain on duty until the terrain parks close.

Area Orientation: It is important to know where the different camps are located because that is how cases get called in. There will be more than one public terrain park and they have different names too. Timberline will be drawing up a map of the area it will be sent out by email and on the wiki when available. Be sure to ask on your patrol day if there are any changes to the map.

As the season wears on some of the camps become "fingers" of snow that no longer connect with the way out. Ask on your patrol day if any areas are cut off.

Transporting Cases: All cases are transported from Palmer by sled. Ask on your patrol day what resources are available for getting sled out of cut-off areas. Sometimes it is too warm to use snow machines. Once the snow has melted off the East Mile, all cases will be brought down Mile Canyon, Associates meet cases at the loading dock.

Special Note on downloading: As a general rule, Timberline does not download skiers/snowboarders or climbers on Palmer. When a person is downloaded they must be accompanied by a patroller as there is no unloading zone at the bottom. Refer all requests for a Palmer download to the Paid Patrol Supervisor of the Day.

Who's In Charge: Every effort is being made to have a Hill Captain and/or Associate Supervisor on duty each weekend day. Occasionally, there will be no HC or AS on duty. In that case the most senior patroller (hill or associate) should act as the coordinator for the day including completing the green sheet and daily summary. The green sheet and daily summary should be faxed from the Govy building to the number on the speed dial. If you have questions, call one of the APCs.

Personal Gear: Bring a backpack with plenty of water, sunscreen and your lunch. Some days it is just too crazy to go down for lunch. Dress in layers and don't underestimate just how COLD or HOT it can get on Palmer.

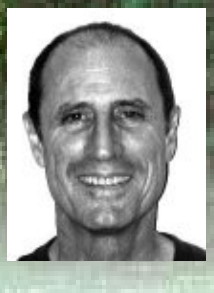
Pre-Dispatch: You may have noticed that there are only a few slots each day at Timberline. That is because there are only so many summer days pre-committed by our members. These numbers were established by the Executive Council to provide the skiing public with the extra volunteer coverage they need while spreading out our available resources through the full season.

Please help us provide consistent levels of coverage by participating in the pre-dispatch. If pre-dispatch is full and you want to patrol, call one of the APC's to check on availability. The APC's can override the dispatch and put you on the list. Timberline loves us; we don't want to spoil that by having too many patrollers in June and none in August. So help "spread the peanut butter". Thanks.

Benefits: Benefits remain the same during summer. Single or family guest pass for Bronze, Silver and Gold members. Silver and Bronze members may also receive a voucher good for 12 months from date of issue.

New APC: Effective June 1, Lisa Hargrave will be stepping down as APC and replaced by David Atkinson. David has been a member of MHSP since 1995 and was a patroller at Squaw Valley before that.

Come see us at Timberline this summer,
Lisa Hargrave, Mark Diamond, David Atkinson



Mountain Hosts

H - hospitality
O -optimize
S - safety
T – teamwork

The MHHP End of Season "gathering" took place Saturday, May 9th, and a great time was had by all! Thanks to Phyllis and Gary Smith for again hosting the function - brats and beer. Thanks also to Joel and Pat Stevens, as well as John Gastineau for attending the function.

The "Host of the Year" was Bob Parry - a tremendous individual, very involved, and an excellent Supervisor.

"Outstanding Contribution" awards were presented to Steve "Giant" Knauss, Mike Cullen, Jan Silagi, and Doug Fischer. This certificate recognizes Hosts who contribute at 150% and beyond to our Program.

Ten Hosts exceeded 20 shifts this season and are new recipients of the Silver Ski. 107 Hosts exceeded the 9 shift minimum, as did the Apprentices who are moving forward to full membership. 123 Hosts total, 1547 shifts, 6188 hrs, 102 Hosts at 9+ shifts, 83% of our group. As a group, in excess of 6250 hours were "contributed" to Timberline and Ski Bowl.

We have had an excellent season and are lined up for another one next year!! There are 12-15 candidates in the interview queue for next Season. The 2009-2010 Host Orientation is currently planned for Saturday, October 17th, in the Timberline Market Cafe. More details to follow.

Here's to the MHHP for a fun and successful season!

National Ski Patrol Merit Stars

In the Spring of 2007 these patrollers were on their way home from a day of patrolling when they encountered an extremely difficult and tragic motor vehicle accident. These patrollers made the accident scene safe, summoned additional help and provided expert first aid to the injured and to distraught family members. The patrollers at the time of the accident ranged from 1st year patroller to 32 years, yet this accident was challenging for all.

All these patrollers when asked their involvement replied basically the same in humble fashion, "it is what any patroller would have done and we were trained for." While that is true, this case was not without its uniqueness. Our patrol worked along with other professional trained rescue crews and Life Flight, traffic issues, logistics of dealing with all including Timberline Management. They all pulled as a team to all needing their care and compassion.

The NSP award application process is rigorous, requiring documentation, witness reports and validation of the patrollers' contribution by a doctor. NSP awarded our patrollers various Merit Stars according to their involvement within the case. The Purple Merit Star is awarded to NSP Patrollers who individually save or are primarily responsible, in conjunction with others, for saving a human life. It is the highest lifesaving award granted by NSP. The Blue Merit Star is awarded for outstanding or crucial support roles in an attempt to save a human life. The Yellow Merit Start is awarded for outstanding service in significant support roles associated with the Purple, Blue or Green Merit Stars.

- Purple Merit Star: Cleo Howell
- Blue Merit Star: Mark Diamond
- Yellow Merit Stars: Susan Horky, Dave Hornibrook, Heidi Potter, Sandra Nehschel, Kathy Lee, Larry Cahill

Another motor vehicle accident on Hwy 26 that was also responded to by patrollers.

Super Heroes

All patrollers are heroes, some are super heroes. The following patrollers are in the top 10% of days patrolled. The list is from most days to fewer.

Ski the Sunny Italian Alps with Ski Flight

European Ski Symposium,
45th Anniversary Tour
January 29 to February 10, 2010

Next year's Ski Flight Symposium celebrating its 45th anniversary, will ski and exchanging in the gigantic ski area the *Italian Dolomiti,* featuring 684 major lifts, 55,000 elevation drop and 150 miles of groomed ski piste.WOW!

Based in *Arrba-Marmalada, Italy* we can access this vast ski circus including; *Marmaloda* (a 10,700 foot sensational ski mountain), *Cortina, Moena, Possa, Cannezei, Vigo di Fassa, Covarra, Val Gardena, St.Christian, St. Jude and Buffare* all connected on one Dolomiti Super Ski Pass. This incredible area also encompasses the massive *Sella Mountain*, which is 105 miles in circumference and we may ski around.

Exchange with Italian Rescue Service

Arabba also houses the Italian Avalanche Institute, which controls the avalanche and weather forecasts, and research for the entire area. We will try to arrange a visit. Also a meeting with one or more of these other rescue groups to discuss techniques, equipment and inspect rescue facilities

To handle such a huge ski resort, rescue teams and helicopters based around the area complete many piste accidents. For other simpler accidents the lift operators use ***Akjas*** and snowmobiles. Lift operators, Cabineri (police) and ski patrollers patrol the slopes and respond to accidents. "Sweep" (clearing the hill) is not possible in regions this huge. Searches are only conducted when needed.

Ski Flight Started In 1965

Since its inception by Curt Beam Division Director in 1965, The Ski Symposium to Europe or Ski Flight has enjoyed a varied and exciting history for forty-five years. From going behind the Iron Curtain to ski and exchange with the Bulgarian Ski Patrol and The Czech Republic to the sunny slopes of the *Italian Alps* to the snowy mountains of Norway and Sweden. We also skied the High Route of Austria, (at the request of the Austrian government), a real adventure. Ski Flight has covered The Alps of Europe.

Much has been learned exchanging with the European Ski Patrols. And, we are still open to new ideas and friendships with European patrols. Some fantastic social fun and amazing skiing has been enjoyed.

Hotel Olympia in Arrba - Our Base

Our base in *Arraba-Marmaloda (4,602 feet)),* is the three star plus deluxe luxury Hotel Olympia with tasty *Italian* food, hot tub spa and facilities and spacious rooms. *Arraba-Marmaloda,* located at the mid-point of the giant ski region, is ideal for skiing the *Sella rounda* (a circuit of the *Sella Mountain*). This circuit takes a full day and you ski up lifts and through fascinating *Italian* towns and villages, 105 miles in a round trip of the mountain a genuine accomplishment. It is excellent multi-varied skiing, beautiful mountain views, interesting villages and a lot of fun.

Après Ski, Florence

Following a week of great skiing you have an opportunity to extend your vacation *to Florence* before returning to the U.S.A. You would bus to Milan for a festive overnight then Bologna and fly home on *February 10*. These ancient cities offer an excellent opportunity to experience European history, culture and ambiance. Following the overnight in Milan we travel to Bologna before arriving at our boutique hotel in Florence for three nights. While there we enjoy a guided city tour and an Italian cooking school and plenty of time to rest, shop or explore this fascinating city.

Contacts for More Information

For additional information and a detailed flyer on the European Ski Symposium contact Ski Flight Advisor Jack Melill at jack.melill@Juno.com or telephone 425 313 4632 mail address: Ski Flight: 25406 SE 138th Street, Issaquah, Washington 98027.

Watch the Nor'wester and PNWD website (NSP-PNWD.com) for flyer and more information.

Ski Flight is the official fundraiser for the Pacific Northwest Division.

More information and a reservation form are available on the MHSP Wiki.
